

ENVIRONMENTAL CHARTER

OUR COMMITMENT IS FOUNDED ON :

- REDUCING THE PRODUCTION OF WASTE • REUSE OF WASTE
- RECYCLING OF WASTE

We therefore take part in the "Rule of the 3 R's" created for waste management. Added to these three objectives is the manifest resolve to inform and sensitise, at the same time, our public, our team and our partners.

REDUCING THE PRODUCTION OF WASTE

It is possible to reduce the quantity of waste by watching the orders we place and favouring the use of recyclable or biodegradable components.

Kulturfabrik bears the label of SuperDrecksKëscht® which is a trademark set up in connection with the tasks the State of Luxembourg has assumed in waste management. It puts a priority on prevention, followed by treatment for purposes of reuse, recycling and any other commercialisation and, ultimately, elimination of waste.

ADMINISTRATION

- Abolishing small packaging: milk and cream sachets, small coffee portions, etc.
- Purchasing milk in plastic packaging with recycling ensured by Valorlux
- Choice of packaging in bulk
- Use of reusable and washable receptacles for beverages
- Reducing the level of acceptance of outside advertising
- Reducing paper consumption (e.g. number of flyers)
- Electronic distribution of information
- No use of telephone directories
- Economic use of office equipment and rechargeable ink cartridges for printers

CONCERT HALL

- Use of rechargeable soap dispensers and 100% recycled paper for toilet facilities
- Abolishing decoration in the concert halls
- Items on sale (t-shirts, sweatshirts, bags) of 100% organic cotton, GOTS certified, with the Fairwear Foundation label
